SITUATION SUMMARY

Flood Operation Center(FOC), Department of Water Resources (DWR), Prepositioning of Resources and Personnel (Continued)

- River forecasts will be issued once per day Thursday 11/22/18 through Sunday 11/25/18. Minor rises are forecast on the main stem rivers.
- Flood Operations Branch (FOB) staff are assisting DWR's Security and Emergency Management Program to fulfill four Cal OES mission tasks for assistance with burn scar areas:
 - Flood fight materials to Chico Airport:
 - Two containers were delivered to the Chico staging area on Sunday, 11/18/18. Material from the containers was delivered to Paradise yesterday, 11/19/18.
 - An additional 64 rolls of Visqueen were delivered to the Chico staging area by Sutter Yard staff at 1530 hours on 11/19/18.
 - Flood fight materials to Butte County Fairgrounds:
 - Flood Fight Specialist directed CCC crews to place sand bags around temporary shelters.
 - Sutter Maintenance Yard staff are delivering sandbags to three shelter locations (two in Chico, one in Orland) for use in temporary shelter protection.
 - 8,000 sandbags were requested to be staged at the Butte County Fairgrounds in Gridley to protect the temporary housing for evacuees against potential flooding.
 - Two flood fight material containers are already located at the fairgrounds with 12,000 sandbags each.
 - Cal OES coordinated the transportation to pick up 5,000 sandbags from the Butte County Fairgrounds in Gridley to be delivered to the Nazarene Church in Oroville.
 - Flood fight materials to Evacuation Centers in Chico and Orland:
 - Sutter Maintenance Yard staff arrived at Neighborhood Church in Chico at approximately 1400 hours to deliver 5,000 sandbags. From there they will deliver 10,000 sandbags to the East Avenue Church in Chico, and 4,000 sandbags to the Glenn County Fairgrounds in Orland.
 - Flood fight materials to Los Alamitos:
 - Cal OES requested two flood fight material containers to be pre-deployed near the Cal OES Regional Operations Center in Los Alamitos.
 - Four containers are already staged at this location. Staff is available to provide access if needed.
 - Staff:
 - Flood Fight Specialist will assess four additional shelter locations (two in Chico, one in Oroville, and one in Orland) and provide recommendations for temporary shelter protection.
 - Four flood fight specialists (two from North Region Office and two from DFM) have been identified to provide technical assistance on Visqueen placement to cover burned parcels to prevent hazardous materials from being washed into waterways. Two are on site in Paradise as of 11/20/18 and two are available for future deployment if needed.
 - Three safety engineers have been identified to evaluate field and working conditions. One has been deployed to Chico, and two are available for future deployment, if needed.
- FOB staff will continue to monitor and assist through the holiday weekend as needed.
- Updates will be provided if necessary.
- Precipitation can be monitored at the following website: http://cdec.water.ca.gov/california_burn_areas.html.

WEATHER OF CONCERN

Northern California

- The Flash Flood Watch continues for the Camp Fire wildfire in Butte County, the Carr, Delta and Hirz wildfires in Shasta County and the Mendocino Complex in Lake County burn areas through this afternoon.
 - Flash floods and debris flows will be a particular threat in the wildfire burn areas mentioned above.
 - Heavy rainfall at times is possible over the burn areas with the greatest threat expected today.

Southern California

- A period of elevated fire weather conditions is expected Sunday through Tuesday, mainly for the mountains and inland valleys.
 - Northeast winds will increase through and below passes and canyons, and along the coastal foothills on Sunday at 15 to 25 MPH with gusts 30 to 40 mph in favored areas.
 - Minimum Relative Humidity (RH) values of 25-35% on Sunday will lower into the teens on Mon/Tue.
 - Winds are expected to be weaker by Tuesday.

Key Points

11/23/18 - 11/29/18

Friday

- Rain and mountain snow will impact primarily northern and central California.
- Snow levels will be around 7000 feet. Accumulating snowfall will make travel very difficult in some mountain locations.
- Moderate to heavy rainfall could bring a threat of mudslides and debris flows. This threat is highest at wildfire burn scars, including the Camp, Carr, Delta, Hirz, and Mendocino Complex fire burn scar areas.
- Strong winds are expected across much of the Inland, with travel impacts expected for high profile vehicles and areas of property damage possible.

Key Points

11/23/18 - 11/29/18

Saturday-Monday

- Drier weather developing for the weekend.
- A weak to moderate Santa Ana event could bring offshore winds back to southern California Sunday through Tuesday, creating elevated fire weather concerns.

Tuesday-Thursday

- Multiple storm systems could impact California through next week. Exact details are lower confidence, but the first storm is expected to impact primarily northern California on Tuesday, followed by a potentially stronger and more widespread storm across the state Thursday.

Flash Flood Watches are in effect for several burn scars across California including:

- **Camp, Carr, Delta, Hirz, and the Mendocino Complex Fire burn scar areas** through Friday afternoon
- **Natchez and Eclipse burn scar areas** in far northern California through Friday afternoon
- Other burn scar areas across the state are being monitored but widespread impacts not expected at this time
- Those traveling in or along these areas should be prepared for possible road problems due to flooding, rock, and debris flows

Rainfall Forecast Today

- 0.25-1.00 inches of rain over the northern valleys
- 1.00-3.00 inches of rain up to 4.00 inches locally over the northern coastal areas and foothills
- Dry across southern California
- Heaviest rainfall rates mid Friday morning through Friday evening
 - Generally 0.10" to 0.25"/hour rates, expected to remain under 0.50"/hour

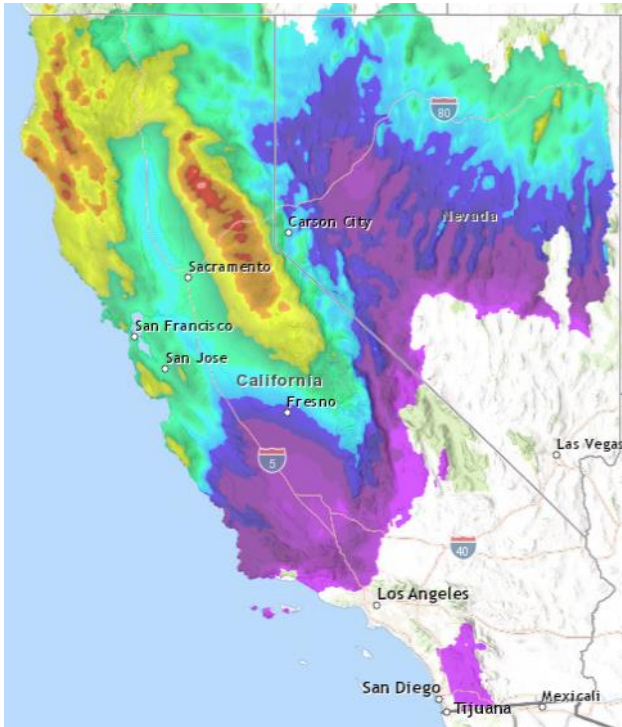

Winds

- Strong winds are expected today across northern California, including:
 - **NE CA and eastern Sierra:** 25-35 mph with gusts to 55-75 mph
 - **Coastal northern CA:** 20-30 mph with gusts to 50 mph
 - **Sacramento Valley and Siskiyou County:** Gusts up to 40 mph
 - **Eastern Sierra front (NV side):** Gusts 50-70 mph Thursday and Friday
 - **Sierra ridges:** Gusts 75-100 mph

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

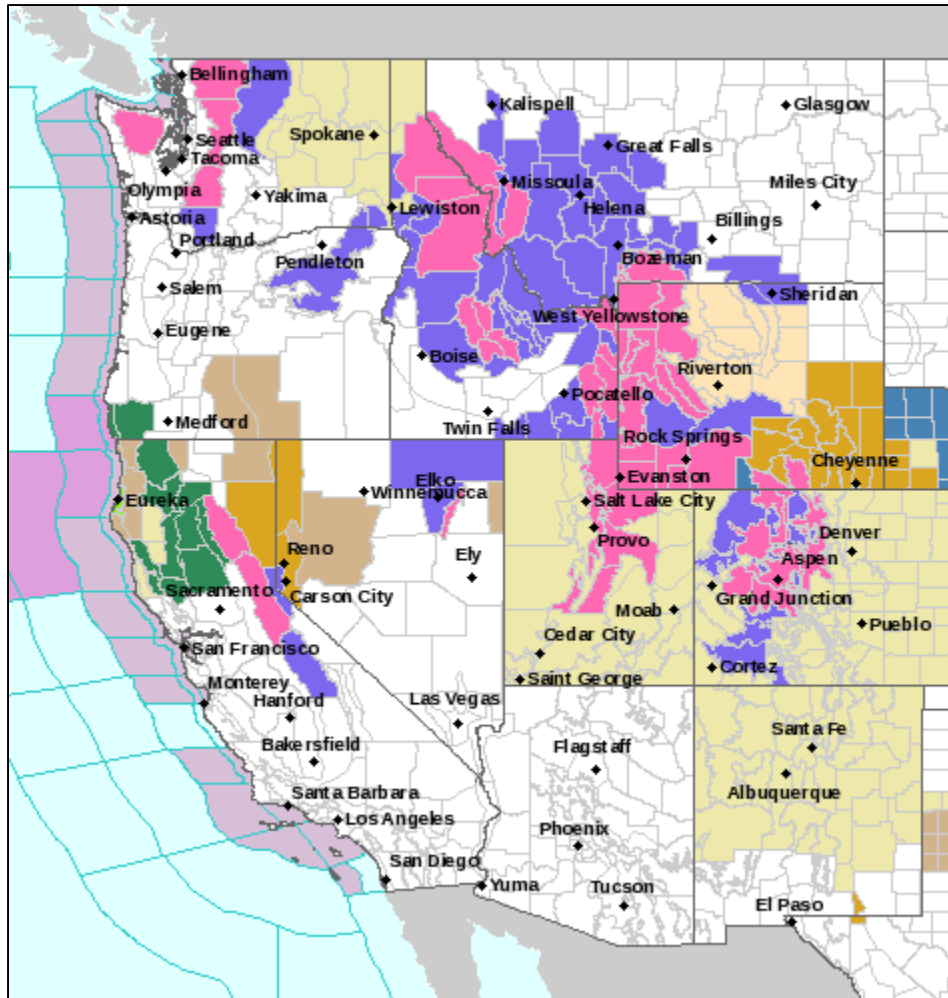

- Active weather pattern continues today with wind, rain and mountain snow.
- Risk for ash/debris flows will continue in newly burned areas.
- Difficult driving conditions are expected across the northern Sierra passes.
- After a relative break in precipitation for many areas early this morning, radar indicates light precipitation is filling in across much of the region early this morning as warm-advection increases ahead of the next wave off the northwest California coast.
- Southerly surface pressure gradients are increasing once again and increasingly breezy southerly winds are expected early today.
- In the valley and foothills, temperatures remain very mild (in the upper 40s to mid 50s). Light precipitation this morning will give way to areas of heavier precipitation this afternoon (especially over the eastern foothills) with perhaps some embedded convection to enhance precipitation rates.
- For the recent burn scars, this afternoon is likely to be the period of highest risk for debris/mud flows if convection develops with persistent heavier rainfall.

SOUTHERN CALIFORNIA

- A Pacific trough will be over the West Coast through Saturday. A weak ridge of high pressure will build into California from the Pacific Ocean Sunday and Monday. A series of Pacific storms from the Gulf of Alaska will move into the West Coast Tuesday through the end of next week.
- Showers will move across Central California from a Monterey/Fresno County line northward through Saturday morning.
- Most locations will receive less than a half inch of rainfall through Saturday morning, but the Central Sierra and its surrounding foothills will receive between 1 and 2 inches of rainfall.
- The snow level will be around 8,000 feet.
- Westerly winds of 20 to 30 mph with gusts to 50 mph will surface across the wind prone mountain and desert areas through Saturday morning.
- Temperatures will be around 5 degrees below normal through Saturday, with upper 40s and 50s across the mountains and 60s to low 70s in the valleys.
- Temperatures will warm and humidity will lower Sunday and Monday.
- There will be local northeast winds of 10 to 20 mph with gusts to 35 mph across the mountains and below the canyons and passes of Southern California Sunday morning through Monday evening.
- Temperatures will cool Tuesday through the end of next week.
- Periods of rain will move across the region Tuesday night through the end of next week.

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2018-LAW-55760, 11/22/18, 1539 hours:** Madera County Sheriff's Department (MCSD) requested a hoist equipped helicopter to extract a 45 year old female hiker from a mountainous area of Eastern Madera County, GPS 37.7063° by -119.1495°. The hiker had become lost and disoriented. She was suffering from the extreme cold. A CHP helicopter located the victim but was unable to effect a rescue due to high winds. CHP suggested a larger aircraft from the National Guard. National Guard was contacted but could not respond until the following morning. A helicopter from China Lake Naval Weapons Center was available for an immediate response. China Lake responded to the area but was unable to complete the rescue due to weather conditions. National Guard was re-contacted and agreed to respond with a helicopter, with an expected arrival time of 0745-0800 hours on 11/23/18. **Mission Ongoing**
- **2018-LAW-55622, 11/21/18, 0700 hours:** Kern County Sheriff's Department (KCSD) is requesting resources to assist the FBI in a kidnapping case. KCSD is requesting (16) Human Remains Detection (HRD) Search Dog Teams. This search will take place in the Mojave Desert on 11/28/18 - 11/29/18 at 0800 hours. The California Governor's Office of Emergency Services, Law Enforcement Branch is coordinating the search dog response. **Mission Ongoing**
